Notice to agent is notice to principal; notice to principal is notice to agent

In April I **published** a failed freedom of information response from Denmark showing that the “experts” at **Statens Serum Institut** have no scientific evidence showing that “HPV” exists let alone causes cancer.

An earlier **newsletter** featured the same failure from Denmark’s **Hvidovre Hospital and resident test-pusher / “virus” story-teller Jesper Bonde**.

It also included a video - the “**Disruption Corona Press Conference Denmark Sept 29th 2020**” wherein people who fancy themselves “health authorities” were confronted by journalist Kristofer Krarup with their own official “SARS-COV-2” **confessions/failures** regarding the imaginary “SARS-CoV-2”.

That newsletter also linked to the “experts” earlier **confessions** of having **no record of any alleged “virus” for which they recommend childhood quackcines having been found in and purified from any sick person**, by anyone, anywhere... even though purification is an essential preliminary step in scientifically testing a “virus” hypothesis.

Sundhedsstyrelsen “experts” have no valid evidence to back up claims/products/offers

Now let’s have a look at the 3rd official response that Ruth Thorresen obtained from Danish “experts”.

On July 26, 2023 Ruth sent a request to the so-called Danish Health Authority, **Sundhedsstyrelsen**, under the Danish Act on Public Access to Public Administration for full access to (emphasis is mine; see pgs **7-8**):

1. All studies and/or reports in the custody of or administered by the Danish Health Authority, Statens Serum Institut (Danish sector research institute), hospitals, universities, and/or any other entity worldwide that describe and scientifically prove the isolation and purification (via maceration, filtration and use of ultracentrifugation; commonly referred to as "isolation") of "HPV" i.e. "Human Papillomavirus" directly from a sample taken from a sick patient, where the sample material has not first been mixed with other genetic

material (such as monkey kidney cells aka Vero cells; fetal bovine serum, HEK-293, HUH7, etc.)...

2. All studies and/or reports in the custody of or administered by the Danish Health Authority... that scientifically prove that HPV causes cervical cancer.

Ruth also requested citations for **any such studies** that are already publicly available.

On July 31, 2023 **Eva Marie Blichfeldt-Moltke** responded and confessed (pgs **9/10**) on behalf of "the authority" that (emphasis is mine):

*"The Danish Health and Medicines Authority is unable to send you files that match your request because the Danish Health and Medicines Authority **does not have the type of material you are looking for.**"*

Sundhedsstyrelsen agent obfuscates

Eva Marie couldn't leave such a confession hanging in the air and so she continued by vaguely and unhelpfully citing lists of dozens and dozens of studies unrelated to the request:

*"In your email, you mention the Danish Health Authority's recommendations for cervical cancer screening. In this publication, you will also find a reference list that shows which studies are, among others, used to develop the recommendations. In addition, a number of studies on HPV have been included in the preparation of the Danish Health and Medicines Authority's **medical technology assessment of HPV vaccination for boys**, which are listed in the reference list of the publication."*

(The screening propaganda referenced by Eva Marie is [here](#).)

And then Eva Marie rambled on irrelevantly (my emphasis):

*"The Danish Health and Medicines Authority can inform that human papillomavirus (HPV) and the **association** between HPV and cervical cancer (as well as various other rare cancer types) have been described by, among others, World Health Organization (WHO), the European Center for Disease Prevention and Disease Control (ECDC) and Statens Serum Institut (SSI) as well as many other countries' health authorities.*

*The WHO and ECDC websites provide a range of information and publications on the **incidence and prevalence** of HPV worldwide. See for example*

- *Human Papillomavirus (HPV) (who.int)*
- *Human papillomavirus (europa.eu)*
- *Human Papillomavirus (HPV) infection (ssi.dk)*
- *Cervical cancer (who.int)*

*Regarding the studies you are interested in, I have to refer you to various scientific journals. Please note that in some cases you may have to pay to read the articles, while others will be freely available on the internet. **The Danish Health and Medicines Authority is not in a position to provide specifics for these studies**, as the number of studies on HPV is very large and available on several different platforms."*

To which Ruth responded (pg **11**):

"...I am not presented with relevant scientific evidence that supports the use of the test in question and on which I can base my informed consent... I must conclude that the HPV home test and the claim that HPV causes cervical cancer are obviously not based on a solid scientific foundation..."

Eva Maria wrote back with unsubstantiated claims of “scientific evidence” and an admission that “the Danish Health Authority” relies on **recommendations** from globalists and **advice** from “leading experts”. Her vague, unhelpful response is on [page 12](#).

Official Confessions/Evidence Showing that Virology is Pseudoscience

Freedom of Information Responses reveal that health/science institutions around the world (223 and counting!) have no record of SARS-COV-2 (the alleged covid virus) isolation/purification, anywhere, ever:

Excel file listing 223 institutions:

FOI responses re other imaginary viruses (HIV, avian influenza, HPV, Influenza, Measles, etc., etc., etc.):

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-have-no-record-of-any-virus-having-been-isolated-purified-virology-isnt-a-science/>

FOIs re secretive and unscientifically "mock infected" cells (aka invalid controls) and fabricated "virus genomes":

<https://www.fluoridefreepeel.ca/do-virologists-perform-valid-control-experiments-is-virology-a-science/>

3000+ pages of "virus" FOIs in 8 compilation pdfs, and my **notarized declarations** re the anti-scientific nature of virology:

Failed freedom of Information responses re contagion:

Do health and science institutions have **studies proving that bacteria CAUSE disease?**

<https://www.fluoridefreepeel.ca/do-health-authorities-have-studies-proving-that-bacteria-cause-disease-lets-find-out-via-freedom-of-information/>

Because "they" (HIV, influenza virus, HPV, measles virus, etc., etc., etc.) have never been shown to exist, clearly don't exist and virology isn't a science.

For truth, freedom and sanity,

Christine
