2024.06.18 **CDC confession: no scientific evidence
of group A Streptococcus being pathogenic**

Article in [Substack, June 18, 2024](#)

Greetings and Best Wishes,

Note: this article has nothing to do with whether or not health conditions exist. No one is questioning whether or not sick people or animals are actually sick.

The issue is the alleged **cause** of their health conditions. “Germ” explanations serve as a distraction and cover story (convenient and profitable for some) for harm caused by other factors (i.e. stress, pollution, malnutrition, toxins, medical “care” including quackcines and other pharmaceuticals).

Some believe that bacteria always play a beneficial role in the dis-ease process. For example, Amanda Vollmer [writes](#) that

“Bacteria proliferate because there is dead organic matter for them to feed on, not because they suddenly become malevolent.”

According to the “experts” at the U.S. Centers for Disease Control and Prevention (CDC):

“Three infections caused by group A strep bacteria can be very serious and even deadly:

- ***Cellulitis***
- ***Necrotizing fasciitis***
- ***Streptococcal toxic shock syndrome”***

<https://www.cdc.gov/group-a-strep/about/index.html>

December 4, 2022:

I filed a FOIA request with the CDC and the Agency for Toxic Substances and Disease Registry (ATSDR) for:

“All studies and/or reports in the possession, custody or control of the ... (CDC) and/or the... (ATSDR) and/or the people who are responsible for the CDC's claim that group A Streptococcus causes sore throat, that describe valid controlled experiments using purified group A Streptococcus to prove causation of sore throat or any other sign or symptom via a natural mode of exposure... I require any study/report matching the above description, **authored by anyone, anywhere, ever”**

As usual, I asked that if any records match the above description and are currently available elsewhere, I be provided citations so that I may identify and access them.

2024.06.18 **CDC confession: no scientific evidence
of group A Streptococcus being pathogenic**

December 27, 2022:

Roger Andoh acting as FOIA Officer in the Office of the Chief Operating Officer confessed that the “experts” at the CDC and ATSDR have no such studies/reports:

“A search of our records failed to reveal any documents pertaining to your request.”

[#23-00348-FOIA response](#), see pages 6 & 7

Update, 8:16pm Toronto time (addition of Sam’s video):

Strep A “Superbug”? - Dr Sam Bailey

<https://drsambailey.com/resources/videos/germ-theory/strep-a-superbug/>

(Note: this information has been sent to [~200 people](#) who work for “the state”, lamestream media, etc. at Canada, Isle of Man, England and the U.S., so that they can’t claim later that they didn’t know. It will also be sent to people who act in the Canadian “justice” system that has falsely prosecuted people in relation to the imaginary “SARS-COV-2”.)

2024.06.18 **CDC confession: no scientific evidence
of group A Streptococcus being pathogenic**

Official Confessions / Evidence Showing that Virology is Pseudoscience:

Freedom of Information Responses reveal that health/science institutions around the world (223 and counting!) have no record of SARS-COV-2 (the alleged covid virus) isolation/purification, anywhere, ever

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>

Excel file listing 223 institutions

<https://www.fluoridefreepeel.ca/wp-content/uploads/2024/06/Institution-list-for-website.xlsx>

FOI responses re other imaginary viruses (HIV, avian influenza, HPV, Influenza, Measles, etc., etc., etc.)

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-have-no-record-of-any-virus-having-been-isolated-purified-virology-isnt-a-science/>

FOIs re secretive and unscientifically “mock infected” cells (aka invalid controls) and fabricated “virus genomes”

<https://www.fluoridefreepeel.ca/do-virologists-perform-valid-control-experiments-is-virology-a-science/>

3000+ pages of “virus” FOIs in 8 compilation pdfs, and my notarized declarations re the anti-scientific nature of virology

<https://tinyurl.com/IsolationFOIs>

Failed freedom of Information responses re contagion

<https://www.fluoridefreepeel.ca/freedom-of-information-responses-re-contagion/>

Do health and science institutions have studies proving that bacteria CAUSE disease?

<https://www.fluoridefreepeel.ca/do-health-authorities-have-studies-proving-that-bacteria-cause-disease-lets-find-out-via-freedom-of-information/>

Because “they” (HIV, influenza virus, HPV, measles virus, etc., etc., etc.) have never been shown to exist, clearly don't exist and virology isn't a science.

For truth, freedom and sanity,

Christine

Dear Roger,

I require access to general records;

Description of Required Records:

All studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) and/or the people who are responsible for the CDC's claim that group A Streptococcus causes sore throat, that describe **valid controlled experiments using purified group A Streptococcus to prove causation of sore throat or any other sign or symptom via a natural mode of exposure;**

I am not seeking records that describe attempts to prove causation using unscientific methods;

Recall that **Scientific proof is NOT:**

Opinions, or
Speculation, or
Review papers, or
Descriptive papers;

Scientific proof requires:

Use of the scientific method,
Repeatable and falsifiable hypotheses that have been tested using valid, controlled experiments where only 1 variable differs between the experimental and control groups;
In this case, the 1 manipulated variable would be the presence/absence of purified particles (the bacteria in question);

I require any study/report matching the above description, **authored by anyone, anywhere, ever;**

If any records match the above description and are currently available elsewhere, please provide enough information about each one so that I may identify and access them with certainty: title, author(s), date, journal, location, URLs where possible;

Format:

Pdf documents sent to me via email; I do not want anything shipped to me;

Written in good faith, without recourse;
best wishes;

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control
and Prevention (CDC)
Atlanta GA 30333

December 7, 2022

Christine Massey

Via email: cmssyc@gmail.com

Dear Ms. Massey:

The Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) received your attached Freedom of Information Act (FOIA) request dated December 6, 2022. Your request assigned number is 23-00348-FOIA, and it has been placed in our complex processing queue.

In unusual circumstances, an agency can extend the twenty-working-day limit to respond to a FOIA request.

We will require more than thirty working days to respond to your request because we reasonably expect that two or more CDC centers, institutes, and offices (C/I/Os) may have responsive records.

To process your request promptly, please consider narrowing the scope of your request to limit the number of responsive records. If you have any questions or wish to discuss reformulation or an alternative time frame for the processing of your request, you may contact the analyst handling your request Mark Harper at 770-488-8154 or our FOIA Public Liaison, Roger Andoh at 770-488-6277. Additionally, you may contact the Office of Government Services (OGIS) to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services; National Archives and Records Administration; 8601 Adelphi Road-OGIS; College Park, Maryland 20740-6001; e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

Because you are considered an "Other requester" you are entitled to two hours of free search time, and up to 100 pages of duplication (or the cost equivalent of other media) without charge, and you will not be charged for review time. We may charge for search time beyond the first two hours and for duplication beyond the first 100 pages. (10 cents/page).

If you don't provide us with a date range for your request, the cut-off date for your request will be the date the search for responsive records starts.

You may check on the status of your case on our FOIA webpage <https://foia.cdc.gov/app/Home.aspx> and entering your assigned request number. If you have any questions regarding your request, please contact me at 770-488-8154 or via email at wzj6@cdc.gov.

We reasonably anticipate that you should receive documents by February 28, 2023. Please know that this date roughly estimates how long it will take the Agency to close requests ahead of your request in the queue and complete work on your request.

2024.06.18 **CDC confession: no scientific evidence
of group A Streptococcus being pathogenic**

The actual date of completion might be before or after this estimated date.

Sincerely,

Roger Andoh
