Eligibility Individual present in Canada

Request label	scientific evidence of the alleged "H5N1" / purification / intact genome / contagion
Request description	<p>FYI: I am a woman on the land known as Canada, I do not identify as a "citizen" or "resident" or "individual". On May 10, 2023 CFIA confessed (A-2022-00201 / MD) to having zero scientific proof of the existence of any alleged "virus" ever claimed to have affected livestock in Canada. 1. I now request all studies in the possession, custody or control of the institution, authored by anyone, anywhere since May 10, 2023, or obtained by CFIA since May 10, 2023, that scientifically prove/provide evidence of the existence of the alleged "H5N1" (showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause). Note: Scientific proof/evidence is NOT opinions, speculation, declarations, review papers or descriptive studies. Scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments. 2. If the institution has no studies responsive to #1 above, then please indicate such explicitly and provide all studies and/or reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, describing the purification of particles that are alleged to be "H5N1" directly from bodily fluid/tissue/excrement of so-called "hosts" (without adding any sources of genetic material or proteins), with purification confirmed via EM imaging (the images must be available as well). Purify = separate from everything else in the</p>

clinical sample. I am aware that according to "virus" dogma a "virus" requires host cells in order to replicate; I am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulate; I am simply seeking records that describe its purification (separation from everything else in the "host" sample). I am not seeking private patient records. 3. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, wherein the purported "genome" of this alleged "virus" was found intact (as opposed to fabricated in silico). 4. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, that scientifically demonstrate contagion of the illness / symptoms that are allegedly caused by said purported "virus".

Hi,

This message is to confirm receipt of your request on May 10, 2024 made under the Access to Information, for the following records:

On May 10, 2023 CFIA confessed (A-2022-00201 / MD) to having zero scientific proof of the existence of any alleged "virus" ever claimed to have affected livestock in Canada. 1. I now request all studies in the possession, custody or control of the institution, authored by anyone, anywhere since May 10, 2023, or obtained by CFIA since May 10, 2023, that scientifically prove/provide evidence of the existence of the alleged "H5N1" (showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause). Note: Scientific proof/evidence is NOT opinions, speculation, declarations, review papers or descriptive studies. Scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments. 2. If the institution has no studies responsive to #1 above, then please indicate such explicitly and provide all studies and/or reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, describing the purification of particles that are alleged to be "H5N1" directly from bodily fluid/tissue/excrement of so-called "hosts" (without adding any sources of genetic material or proteins), with purification confirmed via EM imaging (the images must be available as well). Purify = separate from everything else in the clinical sample. I am aware that according to "virus" dogma a "virus" requires host cells in order to replicate; I am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulate; I am simply seeking records that describe its purification (separation from everything else in the "host" sample). I am not seeking private patient records. 3. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, wherein the purported "genome" of this alleged "virus" was found intact (as opposed to fabricated in silico). 4. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, that scientifically demonstrate contagion of the illness / symptoms that are allegedly caused by said purported "virus".

Bonjour,

Le présent message vise à confirmer la réception de votre demande du 10 mai 2024 ayant été formulée en vertu de la Loi sur l'accès à l'information, pour les documents suivants

Christine [REDACTED]

Dear Ms. Eeee,

This is further to your request which was received on May 9, 2024, pursuant to the *Access to Information Act* (the *Act*) for copies of:

On May 10, 2023 CFIA confessed (A-2022-00201 / MD) to having zero scientific proof of the existence of any alleged "virus" ever claimed to have affected livestock in Canada. 1. I now request all studies in the possession, custody or control of the institution, authored by anyone, anywhere since May 10, 2023, or obtained by CFIA since May 10, 2023, that scientifically prove/provide evidence of the existence of the alleged "H5N1" (showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause). Note: Scientific proof/evidence is NOT opinions, speculation, declarations, review papers or descriptive studies. Scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments. 2. If the institution has no studies responsive to #1 above, then please indicate such explicitly and provide all studies and/or reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, describing the purification of particles that are alleged to be "H5N1" directly from bodily fluid/tissue/excrement of so-called "hosts" (without adding any sources of genetic material or proteins), with purification confirmed via EM imaging (the images must be available as well). Purify = separate from everything else in the clinical sample. I am aware that according to "virus" dogma a "virus" requires host cells in order to replicate; I am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulate; I am simply seeking records that describe its purification (separation from everything else in the "host" sample). I am not seeking private patient records. 3. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, wherein the purported "genome" of this alleged "virus" was found intact (as opposed to fabricated in silico). 4. All studies/reports in the possession, custody or control of the institution, authored by anyone, anywhere, ever, that scientifically demonstrate contagion of the illness / symptoms that are allegedly caused by said purported "virus".

Canada

Your request involves a large number of records or necessitates a search through a large number of records and meeting the original time limit would unreasonably interfere with the operations of the Agency. We are therefore taking a time extension of up to 30 days, as defined in paragraph 9(1)(a) of the Act, to complete the processing of your request.

The revised due date is **July 9, 2024**.

Please be advised that you are entitled to complain to the Information Commissioner if you feel that this time extension is inappropriate. Complaints should be made within sixty (60) days from this notice to the following address:

Office of the Information Commissioner
30 Victoria Street
Gatineau, Québec K1A 1H3
Tel: 1-800-267-0441
Fax: 819-994-1768

OR by using the online complaint form at:

<https://www.oic-ci.gc.ca/en/make-complaint-online>

Should you have any questions or concerns regarding this matter, do not hesitate to contact me, by telephone at 343-574-9108 or by e-mail at Yashoda.Maliah@inspection.gc.ca.

Yours truly,

Joannis,
Helene

Acting Team Leader
Access to Information and Privacy

Encl. (Section 9)
cc: Information Commissioner

Extension of time limits

9.(1) The head of a government institution may extend the time limit set out in section 7 or subsection 8(1) in respect of a request under this Act for a reasonable period of time, having regard to the circumstances, if

(a) the request is for a large number of records or necessitates a search through a large number of records and meeting the original time limit would unreasonably interfere with the operations of the government institution,

(b) consultations are necessary to comply with the request that cannot reasonably be completed within the original time limit, or

(c) notice of the request is given pursuant to subsection 27(1) by giving notice of the extension and, in the circumstances set out in paragraph (a) or (b), the length of the extension, to the person who made the request within thirty days after the request is received, which notice shall contain a statement that the person has a right to make a complaint to the Information Commissioner about the extension.

Notice of extension to Information Commissioner

(2) Where the head of a government institution extends a time limit under subsection (1) for more than thirty days, the head of the institution shall give notice of the extension to the Information Commissioner at the same time as notice is given under subsection (1).

1980-81-82-83, c. 111, Sch. I "9".

Prorogation du délai

9. (1) Le responsable d'une institution fédérale peut proroger le délai mentionné à l'article 7 ou au paragraphe 8(1) d'une période que justifient les circonstances dans les cas où :

a) l'observation du délai entraverait de façon sérieuse le fonctionnement de l'institution en raison soit du grand nombre de documents demandés, soit de l'ampleur des recherches à effectuer pour donner suite à la demande;

b) les consultations nécessaires pour donner suite à la demande rendraient pratiquement impossible l'observation du délai;

c) l'avis de la demande a été donné en vertu du paragraphe 27(1).

Dans l'un ou l'autre des cas prévus aux alinéas a), b) et c), le responsable de l'institution fédérale envoie à la personne qui a fait la demande, dans les trente jours suivant sa réception, un avis de prorogation de délai, en lui faisant part de son droit de déposer une plainte à ce propos auprès du Commissaire à l'information; dans les cas prévus aux alinéas a) et b), il lui fait aussi part du nouveau délai.

Avis au Commissaire à l'information

(2) Dans les cas où la prorogation de délai visée au paragraphe (1) dépasse trente jours, le responsable de l'institution fédérale en avise en même temps le Commissaire à l'information et la personne qui a fait la demande.

1980-81-82-83, ch. 111, ann. I « 9 ».
