Notice to agent is notice to principal; notice to principal is notice to agent

## Background

My April 8, 2024 **newsletter** included:

- Calvin Perrins and Michael O'Bernicia's **Notice** of Conditional Acceptance **for farmers being harassed by "government" agencies over the imaginary "H5N1"** (Calvin tells me this tool has been very successful in the U.K.);
- Official "H5N1" FOI responses from the CDC, Public Health Agency of Canada, Japan's National Institute of Infectious Diseases, UK Animal and Plant Health Agency and the European Centre for Disease Prevention and Control, showing that they have **zero scientific evidence re "H5N1"**;
- An official 2023 confession that the "experts" at Canadian Food Inspection Agency have **zero scientific proof of the existence of any alleged "virus" that they claim has ever affected livestock in Canada**;
- Articles/videos exposing the "H5N1" scam,
- Links to hundreds more "germ"-related FOI responses.

Dr. Sam Bailey's **video and notes** of May 21st covered the leaked May 9th "H5N1" round table discussion wherein people acting as "public health experts" **in Canada** strategized on how to pull off the latest "virus" hoax.

My June 10 **newsletter** reported that on June 6, 2024 the folks at Canadian Food Inspection Agency said (**pg 10**) that they needed up to 30 more days to hunt for the following studies requested back on May 9th:

- studies that scientifically prove/provide evidence of the existence of "H5N1"
- studies that describe purification of particles that are alleged to be "H5N1" directly from bodily fluid/tissue/excrement of "hosts"
- studies wherein the purported "genome" of this alleged "virus" was found intact (as opposed to fabricated 'in silico' aka a computer model)
- studies that scientifically demonstrate contagion of the symptoms allegedly caused by said purported "virus".

## Update re Canadian Food Inspection Agency (CFIA)

Keeping in mind that CFIA is the "lead agency" in Canada on the supposed "H5N1" health threat...

July 9, 2024:

Yashoda Maliah acting as Junior Analyst, Access to Information and Privacy emailed me a new letter "digitally signed by Joannis, Helene" and a "Release Package" (**pgs 12-19**). The letter reads:

"Enclosed, please find the documents pertaining to your request. Portions of the information have been exempted under section 68(a) of the Access to Information Act. A copy of this section is enclosed for your ease of reference."

**Here** is the wording of section 68(a) at the time of my request:

"68 This Part does not apply to

(a) published material, other than material published under Part 2, or material available for purchase by the

public".

"Joannis, Helene" is implying that documents pertaining to my request are held by CFIA and were sent to me, but "portions" were "exempted" because the material is already published or available for purchase.

The "Release Package" is... 4 pages in total. Each "document" is 2 pages in length, comprised of:

- a form listing the name of a journal, the title of a "Manuscript Draft", a list of "Keywords", a list of "Authors", but **no publication year or date, journal volume/issue, DOI (digital object identifier) or URL, i.e.:**

Manuscript Draft

### Cell Host & Microbe

#### Phylogenetics of the H5N1 avian influenza outbreak in North America reveals the emergence of reassortants with increased fitness --Manuscript Draft--

Manuscript Number:	CELL-HOST-MICROBE-D-24-00508
Full Title:	Phylogenetics of the H5N1 avian influenza outbreak in North America reveals the emergence of reassortants with increased fitness
Article Type:	Research Article
Keywords:	Avian influenza; H5N1; clade 2.3.4.4b; phylogenetics
Corresponding Author:	Yohannes Berhane, PhD National Centre for Foreign Animal Disease Winnipeg, CANADA
First Author:	Anthony Signore

000001

and

- a page saying that pages x to y are withheld pursuant to section 68(a), i.e. :

**Pages 2 to / à 43**

**are withheld pursuant to section  
sont retenues en vertu de l'article**

**68(a)**

**of the Access to Information  
de la Loi sur l'accès à l'information**

So the “Release Package” contains zero studies, zero sentences from any studies, and zero **complete citations** of any published studies.

Continuing from the CFIA response letter (**pg 14**):

“Please note the articles [sic] are available for purchase on **BioRender**. **Cell Reports is an open-access journal where sustainable access to high-quality papers is supported by a fee. Further information about the journal and about publishing with us can be found here.** Upon acceptance you will be offered a choice of two Creative Commons licenses as part of the publishing agreement that allow readers immediate access to the paper upon publication.” (bolding added)

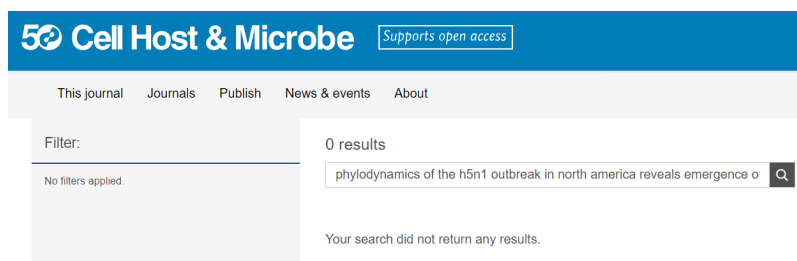

The 3 bolded sentences above are a variation of content from the Cell Reports **webpage** that lists information **for authors preparing manuscripts for submission and publication**. The fact that they are included in the response letter despite being entirely irrelevant and inappropriate suggests to me that the entire response is the failed effort of some “AI” algorithm.

Regarding the purported studies and the reference to “BioRender”, below is an excerpt from my July 10 response to “Joannis, Helene” and **Mark Holland** who acts as “The Honourable Mark Holland” and “Minister of Health”:

“Thank you, however I won't spend hours reading “BioRender's” terms of service, or agree to them, let alone consider giving money to “BioRender” - especially when I don't see any suggestion that the service provides access to journal articles and I can't find any evidence that studies with the listed titles even exist, anywhere.

Neither of the titles are listed on Pubmed, Sci-Hub, google, Yandex or the website of the relevant journal. The almost empty “release package” indicates “Manuscript **Draft**” under each title. The response provides no information regarding purported publication dates, journal volume/issue, doi or url.

“Phylogenetics of the h5n1 outbreak in north america reveals emergence of reassortants with increased fitness” - this title returned no results, and the title suggests a meaningless analysis of computer-model “genomes” that have no demonstrated relationship to the real world or my request. (Virologists always fabricate their “genomes” in silico, based on arrangements of countless sequences - none of which were ever shown to come from a specific particle let alone a replication-competent illness-causing “virus”.)

“MULTIPLE TRANSATLANTIC INCURSIONS OF HIGHLY PATHOGENIC AVIAN INFLUENZA CLADE 2.3.4.4B A(H5N5) VIRUS INTO NORTH AMERICA AND SPILLOVER TO MAMMALS” - this title also returned no results, and the title suggests another delusional analysis based on more of the same, for an imaginary “virus” (“H5N5”) that wasn't even mentioned in my request.

I will be publishing an article about this response, showing everyone that despite the media's "H5N1" fear-mongering and the "public health" community **conspiring** to further demonize raw milk and cheese, invade privacy, frighten the public and implement "testing" to conjure up "cases", the "lead agency" still can't demonstrate that it holds even a shred of scientific evidence that "the virus" even exists or that symptoms are contagious (as with **all other "virus" claims**).

I invite Mark and all of the "experts" cc'd on this email to cite **valid scientific evidence** to back up their "virus" activities.

**Silence will be interpreted as tacit admission that you are engaged in fraud, complicit in another hoax and not fit for "public service".**
