Notice to agent is notice to principal; notice to principal is notice to agent  
...in your public and private capacities

The following was sent to Nathaniel Erskine-Smith who acts as "Member of Parliament" and his response or lack thereof will be published.

Hello [Nathaniel Erskine-Smith](#) who acts as "Member of Parliament".

I understand that you are the sponsor of a private member's bill titled "An Act respecting pandemic prevention and preparedness" that cites concerns over "infectious diseases" and "previous outbreaks... including severe acute respiratory syndrome (SARS), Ebola virus disease (EVD), Zika virus disease... H1N1 flu and coronavirus disease 2019 (COVID-19)..."

Therefore I challenge you to provide or cite a valid primary study (or studies) authored by anyone, anywhere, ever, that for any alleged "virus":

1. proves/provides evidence of its physical existence (with the purported "genome" and proteins) and scientifically demonstrates causation of the illness/symptoms that it's alleged to cause, or
2. that even describes the finding and purification of particles that are alleged to be said "virus" directly from the bodily fluid/tissue/excrement of sick so-called "hosts" (with EM images to show purification), or
3. that describes the purported "genome" of said alleged "virus" being found intact in the bodily fluid/tissue/excrement of a so-called "host" or anywhere else (as opposed to fabricated in silico, aka a computer model), or
4. that scientifically demonstrate contagion of the illness / symptoms that are allegedly caused by said purported "virus", or
5. that scientifically demonstrate that people or animals who are deemed "infected" with said alleged "virus" cause "uninfected" subjects to get sick with the same symptoms.

I also challenge you to provide or cite valid primary scientific evidence (controlled experiments) authored by anyone, anywhere, ever, demonstrating that any type of allegedly pathogenic bacteria causes the illness it is claimed to cause.

If the premise of your bill is accurate, you should have no difficulty whatsoever.

Note that for "viruses" I'm not even challenging you to demonstrate that the alleged particles hijack cells and replicate as claimed, and I'm not expecting you to cite studies that replicate earlier studies for either "viruses" or allegedly pathogenic bacteria.

Your response of lack thereof will be made public.

All the best,  
Christine

valid scientific evidence of "viruses" and pathogenicity of any bacteria

Greetings men and women operating under the title "Senator",

I understand that you have been reading a private member's bill titled "An Act respecting pandemic prevention and preparedness" that cites concerns over "infectious diseases" and "previous outbreaks... including severe acute respiratory syndrome (SARS), Ebola virus disease (EVD), Zika virus disease... H1N1 flu and coronavirus disease 2019 (COVID-19)..." and that it passed your first reading.

Therefore I challenge all of you to provide or cite a valid primary study (or studies) authored by anyone, anywhere, ever, that for any alleged "virus":

- 1. proves/provides evidence of its physical existence (with the purported "genome" and proteins) and scientifically demonstrates causation of the illness/symptoms that it's alleged to cause, or
2. that even describes the finding and purification of particles that are alleged to be said "virus" directly from the bodily fluid/tissue/excrement of sick so-called "hosts" (with EM images to show purification), or
3. that describes the purported "genome" of said alleged "virus" being found intact in the bodily fluid/tissue/excrement of a so-called "host" or anywhere else (as opposed to fabricated in silico, aka a computer model), or
4. that scientifically demonstrate contagion of the illness / symptoms that are allegedly caused by said purported "virus", or
5. that scientifically demonstrate that people or animals who are deemed "infected" with said alleged "virus" cause "uninfected" subjects to get sick with the same symptoms.

I also challenge you to provide or cite valid primary scientific evidence (controlled experiments) authored by anyone, anywhere, ever, demonstrating that any type of allegedly pathogenic bacteria causes the illness it is claimed to

cause.

If the premise of the bill is accurate, you should have no difficulty whatsoever.

Note that for "viruses" I'm not even challenging you to demonstrate that the alleged particles hijack cells and replicate as claimed, and I'm not expecting you to cite studies that replicate earlier studies for either "viruses" or allegedly pathogenic bacteria.

Your response(s) of lack thereof will be made public.

Regards and have a nice day,
Christine

...as will yours.

Official Confessions/Evidence Showing that Virology is Pseudoscience

Freedom of Information Responses reveal that health/science institutions around the world (224 and counting!) have no record of SARS-COV-2 (the alleged covid virus) isolation/purification, anywhere, ever:

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-around-the-world-have-no-record-of-sars-cov-2-isolation-purification/>

**Excel file listing 224 institutions:**

**FOI responses re other imaginary "viruses" (HIV, avian influenza, HPV, Influenza, Measles, etc., etc., etc.):**

<https://www.fluoridefreepeel.ca/fois-reveal-that-health-science-institutions-have-no-record-of-any-virus-having-been-isolated-purified-virology-isnt-a-science/>

**FOIs re secretive and unscientifically "mock infected" cells (aka invalid controls) and fabricated "virus genomes":**

<https://www.fluoridefreepeel.ca/do-virologists-perform-valid-control-experiments-is-virology-a-science/>

**3000+ pages of "virus" FOIs in 8 compilation pdfs, and my notarized declarations re the anti-scientific nature of virology:**

**Failed freedom of Information responses re contagion:**

<https://www.fluoridefreepeel.ca/freedom-of-information-responses-re-contagion/>

**Do health and science institutions have studies proving that bacteria CAUSE disease?**

<https://www.fluoridefreepeel.ca/do-health-authorities-have-studies-proving-that-bacteria-cause-disease-lets-find-out-via-freedom-of-information/>

**Educational materials/sources to get you started if you're new to the topic:**

<https://www.fluoridefreepeel.ca/what-the-hell-is-going-on/>

**Because "they" (HIV, influenza virus, HPV, measles virus, etc., etc., etc.) have never been shown to exist, clearly don't exist and virology isn't a science.**
