## Orange County California confesses: no scientific evidence that SARS-COV-2 or contagion is real... or that anything about "covid" was legit

Notice to agent is notice to principal; notice to principal is notice to agent  
...in your public and private capacities

The FOI described below was inspired by **Peggy Hall**.

Peggy lives in/at Orange County, California and has helped many people across her nation navigate the "hogwash" rolled out by "public serpents" under the guise of protecting everyone from "the cooties".

Peggy never bought into the "suffocation devices", realizes that poisons (quackcines) cannot be made "safer for everyone" and she doesn't pretend that restoring confidence in the corrupt clown-shows called FDA, CDC or NIH would be a good thing. She's a breath of fresh air with an optimistic outlook and plans on "marching this all the way to heaven".

Because "the Orange County Board of Supervisors has refused to hold a public meeting -- *as required by law*" to review the fake-emergency conditions and then to terminate the fake-emergency at the earliest possible date, Peggy filed a "writ of Mandate" against the County in September 2021. She has many articles/videos discussing the corrupt/delusional people at the County.

Inspired by Peggy, on April 29, 2024 I filed a freedom of information order with Frank Kim (since **retired**) acting as County Executive Officer, County Administration North, "Orange County" for all studies/reports held by the institution that scientifically:

- prove/provide evidence of the existence of the alleged covid-19 virus aka "SARS-COV2" (showing that the alleged particles with the purported "genome" and proteins have been found in sick people and shown to cause the illness/symptoms that they are alleged to cause), and/or

- demonstrate contagion of the illness / symptoms that are allegedly caused by said purported "virus".

I included a reminder that scientific proof/evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments and that this requires a valid independent variable (suspected "virus" particles that were found in sick "hosts" and purified).

And as usual I asked that if records matching my request were held by the County but were already publicly available, I would be given citations so that I may identify and access each one. I also clarified that my request was not limited to records authored by someone at the County but included records *authored by anyone, anywhere, ever*.

May 3, 2024:

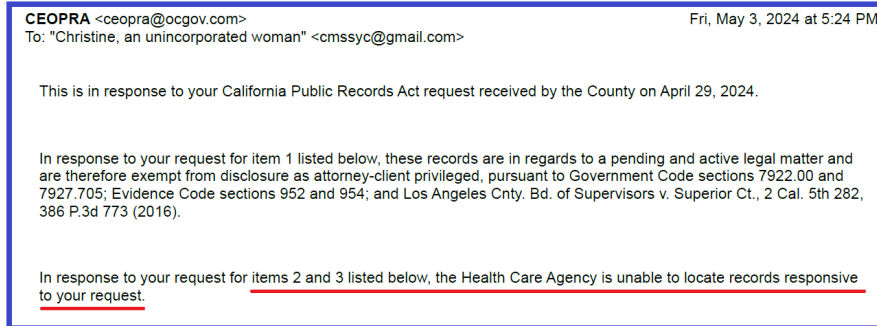

David Kim acting as Program Manager, County Executive Office | Government & Community Relations confessed (**pg 9**) that:

**"...the Health Care Agency is unable to locate records responsive to your request"**

...which was to be expected since virology has always been **pseudoscience**, no virus has **ever** been shown to exist, contagion is "public health" **mythology** and literally **hundreds** of previous FOI responses from 40 different countries also yielded zero valid scientific evidence of any purported "virus".

Also, notice that I didn't even ask for evidence of the purported virus invading and hijacking cells and replicating. I made the request easy and still they failed.

Because "covid" was a complete hoax.

("Item 1" in David's response refers to my additional order for records containing litigation/legal/court expenses/fees/costs/expenditures incurred by the County in defending against Peggy's writ. I'm not convinced that David responded correctly regarding those records, so I wrote back politely disputing his position (pg 10). David never had the courtesy to respond aka he left the battlefield, but I didn't pursue the matter any further.)
