...an indirect confession of horrific trespasses

Notice to agent is notice to principal; notice to principal is notice to agent...in your public and private capacities

Prompted by the publication of **viroLI**Egy author Mike Stone's latest article "**Cat Trick: How to create the fictional "threat" of a "spillover" event**" this morning, I am prompted to finally publish the official FOIA confession that I received from "the CDC" regarding various supposed feline viruses.

On July 2, 2024 I filed a FOIA order (24-01330-FOIA) with the CDC for:

all studies/reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR):

1) that **scientifically prove/provide evidence of the existence** of the following alleged viruses that supposedly infect cats:

Feline Immunodeficiency Virus (FIV),
 Feline Leukemia Virus (FeLV),
 Feline Coronavirus (FCoV),
 Feline Panleukopenia Virus (FPV),
 Feline Herpesvirus (FHV),
 Feline Calicivirus (FCV),
 Rabies virus

(showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause... I didn't even ask for proof that these purported particles infect and hijack cells and replicate).

2. (if they have no records for #1), records that at least describe the **purification** of particles that are alleged to be said "viruses", **directly from bodily fluid/tissue/excrement of sick cats**, with purification confirmed via EM imaging.

3. that describe the **purported genome** of any of these alleged viruses **being found intact** (as opposed to fabricated in silico aka made up on a computer).

4. that scientifically demonstrate **contagion of any illness / symptoms that are allegedly caused by any of said purported "viruses"**.

As usual, I asked that if any records match the above descriptions and are currently available to the public elsewhere, I be provided enough information about each record so that I may identify and access it (titles, authors, etc.).

Why did I ask for such records? Because, as Mike puts it:

"Since virologists can't dazzle us with direct scientific evidence of pathogenic "viruses," they keep trying to baffle us with **pseudoscientific** theatrics aimed at stirring up fear of invisible boogeymen lurking in animals."

Also, previous freedom of information responses from literally hundreds of institutions in 40 different countries have resulted in a grand total of ZERO instances of valid, logical, scientific evidence for *any* purported virus... and the CDC and other institutions have indirectly confessed that virology is simply not a science but rather a pseudoscience... by definition (see links further below).

On September 9, 2024, Ryan Wallace acting as leader of the CDC's "rabies program" emailed me offering to address my "questions", from outside the country (**pg 13**).

Hi Christine - my name is Ryan and I lead the rabies program at CDC. I think you've been trying to reach us with questions about rabies in cats, is that right? It might be easier for me to get you what you need if you can directly write that to me in an email or we can hop on a phone call. I'm out of the country this week, but have decent online access.

Thanks!

Ryan.

To which I clarified that I hadn't asked *questions* but rather had filed a *FOIA order* for *records* and an *official response*.

Hi Ryan,

Thanks for your message. I haven't asked the CDC any questions but I did file a FOIA order for an official response from the CDC along with any records held and relating to alleged viruses in cats, including rabies virus. The specific order is attached.

Cheers

And that was the last I ever heard from Ryan Wallace acting as leader of the "rabies program".

On October 29, 2024 Roger Andoh acting as FOIA Officer in the Office of the Chief Operating Officer responded with the following official legal confession (**pgs 16, 17**, 24-01330-FOIA):

"Personnel from the National Center for Emerging and Zoonotic Infectious Diseases (NCEZID) conducted searches for materials related to your request. **A search of our records failed to reveal any documents pertaining to your request.**"

This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of July 3, 2024, for

1. All studies/reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) that scientifically prove/provide evidence of the existence of any alleged:

*Feline Immunodeficiency Virus (FIV), or
Feline Leukemia Virus (FeLV), or
Feline Coronavirus (FCoV), or
Feline Panleukopenia Virus (FPV), or
Feline Herpesvirus (FHV), or
Feline Calicivirus (FCV), or
Rabies virus*

(showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause).

2. If the institution has no studies responsive to #1 above, then please indicate such explicitly, and provide all studies and/or reports in the possession, custody or control of the institution describing the purification of particles that are alleged to be said "virus", directly from bodily fluid/tissue/excrement of sick cats, with purification confirmed via EM imaging (the images must be available as well).

3. All studies/reports in the possession, custody or control of the institution wherein the purported genome of any of these alleged "viruses" was found intact (as opposed to fabricated in silico aka made up on a computer).

4. All studies/reports in the possession, custody or control of the institution that scientifically demonstrate contagion of any illness / symptoms that are allegedly caused by any of said purported "viruses".

Personnel from the National Center for Emerging and Zoonotic Infectious Diseases (NCEZID) conducted searches for materials related to your request. A search of our records failed to reveal any documents pertaining to your request.

Unfortunately Roger couldn't leave it at that and he went on to discredit himself by offering myriad nonsensical excuses for this colossal failure, and red-herring distractions from this confession of criminal fraud, idiocy, neglected duty of care, etc. See [pages 17-19](#) if you have the patience to read his inane excuses and my response.

Me reporting the virology and covid hoaxes and providing my latest **notarized affidavit** to detective Darren Prinsen, Halton Regional Police Service, November 9, 2024.

Video, part 1

My friend "ER" also provided evidence to Darren regarding the complete lack of due process during the hoax. Said lack of due process led to unnecessary deaths occurring.

Some of Darren's colleagues **refused to take a crime report** from "ER" and others in 2021 and this is now coming back to haunt them. They were warned that if people died as a result of the hoax, which of course did happen, their failure to act would make them a party to murder. We called for these colleagues to be charged with "murder".

(Even the criminal code of "Canada" acknowledges culpable homicide as "murder", see **here** and **s229 (c)**.)

I support "ER"'s suggestion that Ontario police form 2 tactical teams to arrest the people who acted as "Lieutenant Governor" and "Parliament" and his suggestion of life in prison for these criminals.

I also support my friend **Christopher James**' call for a police escort to ensure that we the men and women have access to our supposedly "public" courthouses to press claims and hold court to expose the covid hoax and so much more, without interference from the legal profession.

Official Confessions/Evidence Confirm that Virology is Pseudoscience

Freedom of Information Responses reveal that health/science institutions around the world (225 and counting!) have no record of SARS-COV-2 (the alleged covid virus) isolation/purification, anywhere, ever:

<https://www.fluoridefreepeel.ca/do-virologists-perform-valid-control-experiments-is-virology-a-science/>

3000+ pages of "virus" FOIs in 8 compilation pdfs, and my **notarized declarations** re the anti-scientific nature of virology:

<https://www.fluoridefreepeel.ca/do-health-authorities-have-studies-proving-that-bacteria-cause-disease-lets-find-out-via-freedom-of-information/>

Because "they" (HIV, influenza virus, HPV, measles virus, etc., etc., etc.) have never been shown to exist, clearly don't exist and virology isn't a science.

For truth, freedom and sanity,

Christine
