On August 30, 2024 I filed 2 FOIA orders with the US National Institute of Allergy and Infectious Diseases (NIAID), one pertaining to the alleged "HPV" aka "Human Papillomavirus" ([here](#)) and one pertaining to the alleged "monkeypox virus" ([here](#)). I ordered all studies authored by anyone, anywhere in the possession/custody/control of the institution:

1. - that scientifically prove or provide evidence of the existence of either alleged virus (showing that the alleged particles with a specific "genome" and proteins exist and cause the illness/symptoms that they are alleged to cause)
2. - or, that even describe the purification of particles that are alleged to be either alleged virus, directly from bodily fluid/tissue/excrement of so-called "hosts" (without adding any sources of genetic material or proteins and with purification confirmed via EM)
3. - or, wherein the purported "genome" of either alleged virus was found intact in the bodily fluid/tissue/excrement of a "host" (as opposed to fabricated in silico aka made-up / modelled on a computer)
4. - or, that scientifically demonstrate contagion of the illness / symptoms allegedly caused by either alleged virus.

I made it easy on them by not requiring any evidence that the alleged particles hijack cells and replicate. And as usual, I asked that if any records match the above description and are currently available to the public elsewhere, I be provided enough information about each one so that I may identify and access it (titles, authors, etc.).

September 3, 2024:

I received an inappropriate, nonsensical and anonymous email, probably "AI", signed "NHLBI FOIA Service Center". The anonymous email acknowledged that I had filed "requests" (plural) and pretended that more clarity was needed and that I had sought records regarding grants.

I responded 2 days later, on September 5, 2024, pointing out that I did not file FOIA orders for grants but for scientific evidence of HPV and/or monkeypox virus and I asked that a name and job title be provided in the next communication.

FOIA Requests Made to NHLBI FOIA

Hi,
Please identify yourself with your name and job title.
I have not filed any FOIA orders for grants. I filed an order for records containing scientific evidence of "HPV" and "monkeypox virus", attached.

Almost 5 months went by with zero response, so on January 29, 2025 I followed up on the HPV order, saying "send the records or admit that there aren't any".

p.s. and identify yourself with your name, job title and organization when you respond.

The next day, on January 30, 2025, I received another idiotic and anonymous response. This time "NHLBI FOIA Service Center" stated that:

"...we don't have a single, centralized file folder specifically for HPV-related data. The research on HPV is spread across various NIH grants... To help refine your request, we recommend identifying specific grants or contracts... Please note that we currently have a substantial backlog, and if multiple grants are requested, processing times may be longer. We appreciate your patience and understanding as we work to best serve you."

In other words, the "AI" was asking me to believe that both it and staff lack the capability of searching through multiple folders, have basically no idea where to look and could not proceed without me refining my order by identifying specific grants or contracts. That makes so much sense in this "information" age.

Good afternoon,
Thank you for your response. We'd like to clarify that we don't have a single, centralized file folder specifically for HPV-related data. The research on HPV is spread across various NIH grants, which may be found through NIH's ePORTER system.
To help refine your request, we recommend identifying specific grants or contracts related to HPV research that you're interested in. ePORTER provides access to a comprehensive list of grants, files, and funding components that can assist you in locating the most relevant information.
Please note that we currently have a substantial backlog, and if multiple grants are requested, processing times may be longer. We appreciate your patience and understanding as we work to best serve you.
Thank you,
NHLBI FOIA Service Center

[Side note: The Brave browser's "AI" recently **admitted** to me that it is programmed to be engaging and uphold dominant narratives, not to tell the truth, and that it repeatedly lies.]

I responded with a deadline of January 31, 2025, 5pm EST to provide/cite records and warned that I will be publishing a newsletter about the emails and the failure to provide or cite any records.

I filed my order 5 months ago.
The fact that "you" don't have a single centralized file folder is irrelevant.
I already made it clear to "you" on September 5, 2024 that your comments about grants are irrelevant. The order has nothing to do with specific grants or contracts... or "funding components".
"You" have until January 31, 2025, 5pm EST to provide/cite records. I will be publishing a newsletter about "your" anonymous emails and "your" failure to provide or cite any scientific evidence.
Life in prison.

I then provided the same deadline and warning re the monkeypox FOIA.

No response. Pdfs: **HPV, monkeypox virus.**

Note that back on June 15, 2022, Valery Gheen acting as Government Information Specialist at NIAID already **confessed** to Kristen Welch that "The Division of Intramural Research, Division of Microbiology and Infectious Diseases, and Division of Clinical Research within the NIAID searched their files" and couldn't find a single record written by anyone on the planet, ever, describing any alleged monkeypox virus being found in the bodily fluid/tissue of a human and purified... even though this would be a necessary step for scientifically showing the existence of a virus .

FOIA responses from NIAID also showed that Fauci and his fellow “experts” had zero scientific evidence of the imaginary SARS-COV-2... just like all **224+ other institutions** in 40 different countries that have been challenged. (To see the NIAID confessions/failures, type “NIAID” into the search function of your browser [here](#)).

Countless people and animals have suffered horrifically and died over the decades thanks to criminals at NIAID and many other institutions/companies.

Life in prison.
