Phone: 770-488-6277  
Fax: 770-488-6200

Greetings Roger,

This is an order for access to general records, per the *Freedom of Information Act*.

**Ordered Records:**

All studies in the possession/custody/control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR), authored by anyone, anywhere, ever:

1. - that scientifically prove or provide evidence of the existence of any alleged enterovirus (poliovirus, coxsackie A virus, coxsackie B virus or echovirus) (at minimum showing that the alleged particles exist as claimed, with the purported "genomes" and proteins, and cause the illness/symptoms that they are alleged to cause).

Note: Scientific proof/evidence is not opinions, speculation, declarations, review papers or descriptive studies.

Scientific evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments.

2. - (if no records exist for #1) that at least describe the purification of particles that are thought to be any of these alleged viruses, directly from bodily fluid, tissue or excrement of so-called "hosts" (without adding any sources of genetic material or proteins) with purification confirmed via EM imaging (the images must be available as well).

Purify = separate from everything else in the clinical sample.

I am aware that according to "virus" dogma a "virus" requires host cells in order to replicate and am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulates. Nor am I seeking private patient records.

I am simply seeking records that describe purification (separation from everything else in the "host" sample).

3. - wherein the purported "genome" of any of these alleged viruses was found intact in the bodily fluid, tissue or excrement of a so-called "host" (as opposed to fabricated in silico aka made-up / modelled on a computer).

4. - that scientifically demonstrate contagion of any of the symptoms / illnesses that are allegedly caused by any of these purported viruses.

If any records match the above description and are publicly available, please provide enough information about each one so that I may identify and access it with certainty (i.e. title, author(s), date, journal, URL, DOI).

**Publicly Available Records**

If any records match the above description of requested records and are currently available to the public elsewhere, please assist me by providing enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**Format:**

Searchable pdf documents sent to me via email; please don't ship anything to me.

**Contact Information:**

email: [cmssyc@gmail.com](mailto:cmssyc@gmail.com)

Thank you in advance,  
Christine

Ms. Christine Massey

Via email: cmssyc@gmail.com

Dear Ms. Massey:

The Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) received your Freedom of Information Act (FOIA) request dated January 24, 2025 for:

All studies in the possession/custody/control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR), authored by anyone, anywhere, ever:

1. - that scientifically prove or provide evidence of the existence of any alleged enterovirus (poliovirus, coxsackie A virus, coxsackie B virus or echovirus) (at minimum showing that the alleged particles exist as claimed, with the purported "genomes" and proteins, and cause the illness/symptoms that they are alleged to cause).

Note: Scientific proof/evidence is not opinions, speculation, declarations, review papers or descriptive studies.

Scientific evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments.

2. - (if no records exist for #1) that at least describe the purification of particles that are thought to be any of these alleged viruses, directly from bodily fluid, tissue or excrement of so-called "hosts" (without adding any sources of genetic material or proteins) with purification confirmed via EM imaging (the images must be available as well).

Purify = separate from everything else in the clinical sample.

I am aware that according to "virus" dogma a "virus" requires host cells in order to replicate and am not seeking records describing the replication of a "virus" without host cells, or that describe a suspected "virus" floating in a vacuum or a strict fulfillment of Koch's Postulates. Nor am I seeking private patient records.

I am simply seeking records that describe purification (separation from everything else in the "host" sample).

3. - wherein the purported "genome" of any of these alleged viruses was found intact in the

bodily fluid, tissue or excrement of a so-called "host" (as opposed to fabricated in silico aka made-up / modelled on a computer).

4. - that scientifically demonstrate contagion of any of the symptoms / illnesses that are allegedly caused by any of these purported viruses.

If any records match the above description and are publicly available, please provide enough information about each one so that I may identify and access it with certainty (i.e. title, author(s), date, journal, URL, DOI).

Your request was assigned #25-00677-FOIA and placed in our simple processing queue.

**Fee Category**

Because you are considered an “Other requester” you are entitled to two hours of free search time, and up to 100 pages of duplication (or the cost equivalent of other media) without charge, and you will not be charged for review time. We may charge for search time beyond the first two hours and for duplication beyond the first 100 pages. (10 cents/page).

**Cut-off-date**

If you don’t provide us with a date range for your request, the cutoff date for your request will be the date the search for responsive records is initiated.

You may check on the status of your case on our FOIA webpage

<https://foia.cdc.gov/app/Home.aspx> by entering your assigned request number. If you have any questions regarding your request, please contact Ryan Hohl at [uls9@cdc.gov](mailto:uls9@cdc.gov).

We reasonably anticipate that you should receive a final response by February 25, 2025. Please know that this date roughly estimates how long it will take the agency to close requests ahead of your request in the queue and complete work on your request. The actual date of completion might be before or after this estimated date.

Sincerely,

Roger Andoh

Greeting Roger,

I sent the email below and received an auto-reply saying that Ryan is "*currently out of office until 7/3. If the matter is urgent, please send correspondence to Laura Spencer*".

I don't have Laura Spencer's email address. Please have someone provide a response to my FOIA order, as I have already been waiting several months.

Thank you in advance,  
 Christine
