European Centre for Disease Prevention and Control
Gustav III:s Boulevard 40, 16973 Solna, Sweden
Via e-mail to: ECDC.Info@ecdc.europa.eu, access.to.documents@ecdc.europa.eu

Greetings,

This is an order for access to records.

Ordered Records:

All studies in the possession, custody or control of the European Centre for Disease Prevention and Control, authored by anyone, anywhere, ever:

1. - that scientifically prove or provide evidence of the existence of the alleged goatpox virus, sheeppox virus, lumpy skin disease virus or any other alleged virus of the Poxviridae family (at minimum showing that the alleged particles with the claimed "genome" and proteins exist and that they cause the illness/symptoms that they are alleged to cause),

(Note: Scientific proof/evidence is not opinions, speculation, declarations, review papers or descriptive studies. Scientific evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments.)

2. - or (if no records exist for #1) that at least describe the purification of particles that are claimed to be any of these alleged viruses directly from bodily fluid/tissue of so-called "hosts" (without adding any sources of genetic material or proteins), with purification confirmed via EM imaging (the images must be available as well).

(Purify = separate from everything else in the clinical sample. I am aware that according to virus dogma a virus requires host cells in order to replicate. I am not seeking records that describe a virus replicating without host cells, or that describe a suspected virus floating in a vacuum or a strict fulfillment of Koch's Postulates. I am not seeking private patient records. I am simply seeking records that describe purification: separation from everything else in the "host" sample.)

3. - or, wherein the purported "genome" of any of these alleged viruses was found intact in the bodily fluid/tissue of a "host" (as opposed to fabricated in silico, aka computer modelled),

4. - or, that scientifically demonstrate transmission / contagion of any of the illnesses that are allegedly caused by any of said purported viruses,

5. - or, wherein any test that purportedly relates to any of these alleged viruses was validated.

Publicly Available Records

If any records match the above description and are currently available to the public elsewhere, please assist by providing enough information about each record so that it can be identified and accessed with certainty (i.e. title, author(s), date, journal, location). Please provide URLs where possible.

Format:

Searchable pdf documents.

Conveyance:

10/19/25, 4:00 PM

Gmail - FOI to ECDC re: scientific evidence of lumpy skin disease virus or any virus of the Poxviridae family

Please send the records via email to cmssyc@gmail.com; please do not ship anything.

Address:

cmssyc@gmail.com

Thank you in advance.

Dear Ms Christine,

We deal with your request under the European Code of Good Administrative Behaviour.

At European Union level, only two viruses under of the Poxviridae family are notifiable: smallpox and mpox. The other viruses that you mention in your request (goatpox virus, sheeppox virus, lumpy skin disease virus) are not under ECDC's surveillance.

You can find information on smallpox, including links to all ECDC's publications on the topic, at this [link](#).

You can find information on mpox, including links to all ECDC's publications on the topic, at this [link](#).

Kind regards,

The Info Team at ECDC

European Centre for Disease Prevention and Control (ECDC)

Good day "Info Team at ECDC" and the or woman responsible for access to documents, European Centre for Disease Prevention and Control,

Thank you for the message from the anonymous "info team", however it entirely fails to address the order.

The order is for studies. The smallpox and "mpox" (monkeypox) webpages you have referenced are not studies. They do not even contain links to studies that match the order. The listed publications all *pre-suppose* the existence of those alleged viruses and *pre-suppose* contagion.

Your message also *pre-supposes* the existence of the alleged goatpox virus, the alleged sheeppox virus and the alleged lumpy skin disease virus.

The order has nothing to do with "surveillance" of pre-supposed viruses and pre-supposed contagion and it has nothing to do with whether pre-supposed viruses are classified as notifiable.

It is unclear how such a failed response could meet any code of "good administrative behaviour" unless the code in question is worthless smoke and mirrors and euphemistic hand-waving. Regardless, the order has nothing to do with the European Code of Good Administrative Behaviour.

The "Poxviridae family" is said to include dozens of viruses and you have failed to provide valid evidence for the existence of even 1 of them or of a contagious illness. Your failure is consistent with the invalid, unscientific, nonsensical nature of the virological literature, the "missing" scientific evidence for contagious illnesses and the **official legal confessions and failures** already collected from 225 institutions in 40 countries.

Christine, agent and beneficiary for Christine Massey estate trust, all rights reserved.
