And no scientific evidence for contagion and no record of even a "viral genome" being found in anyone. We were faking it all along.

December 12, 2024:

Roger Andoh acting as FOIA Officer, Office of the Chief Operating Officer, confessed in his freedom of information response #25-00253-FOIA (pgs 7/8, attached, emphasis is mine):

"This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of November 19, 2024, for

All studies in the possession/custody/control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR), **authored by anyone, anywhere, ever:**

1. - that scientifically prove/provide evidence of the existence of the alleged "capripox virus" or any alleged virus of the "Poxviridae family" (showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause).

Note: Scientific proof/evidence is not opinions, speculation, declarations, review papers or descriptive studies.

Scientific evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments.

2. - (if no records exist for #1) that at least describe the purification of particles that are claimed to be any of these alleged viruses directly from bodily fluid/tissue/excrement of so-called "hosts" (without adding any sources of genetic material or proteins) with purification confirmed via EM imaging (the images must be available as well).

Purify = separate from everything else in the clinical sample.

You are seeking records that describe purification (separation from everything else in the "host" sample).
You are not seeking private patient records.

3. - wherein the purported "genome" of any of these alleged viruses was found intact in the bodily fluid/tissue/excrement of a "host" (as opposed to fabricated in silico, aka a computer model).

4. - that scientifically demonstrate contagion of any of the illnesses that are allegedly caused by any of said purported viruses.

CDC/ATSDR's National Center for Emerging and Zoonotic Infectious Diseases (NCEZID) conducted search for records responsive to your request. Unfortunately, no responsive documents were found pertaining to your request. Per NCEZID's subject matter experts, CDC/ATSDR has not done any work with capripox viruses. Additionally, CDC/ATSDR does not isolate viruses from a host."

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control
and Prevention (CDC)
Atlanta GA 30333
December 12, 2024

Ms. Christine Massey

Via email: cmssyc@gmail.com

Dear Ms. Massey:

This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of November 19, 2024, for

All studies in the possession/custody/control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR), authored by anyone, anywhere, ever:

1. - that scientifically prove/provide evidence of the existence of the alleged "capripox virus" or any alleged virus of the "Poxviridae family" (showing that the alleged particles exist and cause the illness/symptoms that they are alleged to cause).

Note: Scientific proof/evidence is not opinions, speculation, declarations, review papers or descriptive studies.

Scientific evidence requires use of the scientific method to test falsifiable hypotheses through valid, rigorous, repeatable controlled experiments.

2. - (if no records exist for #1) that at least describe the purification of particles that are claimed to be any of these alleged viruses directly from bodily fluid/tissue/excrement of so-called "hosts" (without adding any sources of genetic material or proteins) with purification confirmed via EM imaging (the images must be available as well).

Purify = separate from everything else in the clinical sample.

You are seeking records that describe purification (separation from everything else in the "host" sample). You are not seeking private patient records.

3. - wherein the purported "genome" of any of these alleged viruses was found intact in the bodily fluid/tissue/excrement of a "host" (as opposed to fabricated in silico, aka a computer model).

4. - that scientifically demonstrate contagion of any of the illnesses that are allegedly caused by any of said purported viruses.

Page 2 - Christine Massey

CDC/ATSDR's National Center for Emerging and Zoonotic Infectious Diseases (NCEZID) conducted search for records responsive to your request. Unfortunately, no responsive documents were found pertaining to your request. Per NCEZID's subject matter experts, CDC/ATSDR has not done any work with capripox viruses. Additionally, CDC/ATSDR does not isolate viruses from a host.

You may contact our FOIA Public Liaison at 770-488-6246 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, via the online portal at <https://requests.publiclink.hhs.gov/App/Index.aspx>. Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be electronically transmitted by March 12, 2025.

Sincerely,

Roger Andoh
CDC/ATSDR FOIA Officer
Office of the Chief Operating Officer
(770) 488-6399
Fax: (404) 235-1852

#25-00253-FOIA

Notice that I made it easy on the CDC's "experts" in part #1 of my request, by not mentioning anything about viruses hijacking cells or replicating. All I asked for was evidence of the alleged particles existing and causing the relevant illness/symptoms... and still they admitted to not having any studies.

They admitted to not having any scientific evidence of contagion as well.

They could not even find 1 record of anyone on Earth finding the supposed "genome" of any of these alleged viruses in any "host"...

...or even 1 record of anyone on Earth ever finding particles that they *claim* to be poxviridae family viruses in bodily fluid, tissue or excrement, and purifying them, so that virologists could have a valid independent variable to sequence, characterize and study with valid rigorous controlled experiments.

And Roger flatly admitted:

"...Per NCEZID's subject matter experts...CDC/ATSDR does not isolate viruses from a host."

Because virology is pseudoscience by definition.

The CDC joins the U.S. **Food and Drug Administration**, the **European CDC**, the **European Food Safety Authority**, **Greece's Ministry of Rural Development and Food**, and **Greece's National Public Health Organization** in spectacularly failing official evidence challenges on Poxviridae family viruses... and **225 institutions** in 40 different countries on dozens of other imagined viruses. Every institution has failed every evidence challenge.

We have been lied to all our lives. There is no "science" to follow.

Life in prison for the perps.

All rights expressly reserved,
Christine
