"Measles":
not even a distinct illness, zero scientific evidence of a virus or contagion, diagnosis is "confirmed" with fraudulent impossible-to-validate tests relating to the imaginary causal agent, zero scientific evidence of "vaccines" working, distraction from and cover story for actual causes of illness

Tom Cowan destroys "measles" narrative in minutes:

Someone cite valid scientific evidence and I'll stand corrected; notarized affidavits attached

RFK Jr. & HHS: still searching for records to support their measles & covid narratives

Jan. 2024:
CDC has no scientific evidence that pox or measles symptoms are contagious
https://christinemasseyfois.substack.com/p/cdc-has-no-scientific-evidence-that

June 7, 2021:
CDC admitted they have no record of “measles virus” purification from a patient sample via maceration, filtration and use of an ultracentrifuge, by anyone, anywhere, ever:
https://fluoridefreepeel.ca/wp-content/uploads/2021/06/CDC-FOIA-request-response-no-records-re-measles-virus-purification.pdf

March 11, 2022:
U.S. Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry respond to a FOIA request for all studies / reports in their possession, custody or control describing the purification of any “virus” addressed by any “vaccine” on either their childhood or adult U.S. “immunization” schedule, directly from a sample taken from a diseased host. CDC/ATSDR provided 5 studies on “rotavirus” (thereby admitting they have no records for any other alleged viruses). None of these 5 studies actually describe isolation/purification of a “rotavirus” from a human.

January 23, 2023:
Once again the “experts” at CDC cited pseudoscience because they do not have any scientific evidence of the alleged measles virus, or even a study wherein the imaginary virus was purified from a host in order for “it” to be sequenced,

characterized and used as the valid independent variable in a scientific study:

FDA lawyer admits: 'HPV' & all other 'virus'-related authorizations are based on zero scientific evidence:

Jan. 2026:
UK Health Security Agency has no scientific evidence of any alleged virus ever:
https://christinemasseyfois.substack.com/p/uk-health-security-agency-has-no

2021:
Australia's Commonwealth Scientific and Industrial Research Organisation – CSIRO ("Australia's national science research agency") also admits to having no record describing the isolation (per the ordinary sense of the word: separation from everything else in the clinical sample) of ANY virus on Australia's national "immunization" schedule, by anyone, anywhere, ever:
https://fluoridefreepeel.ca/wp-content/uploads/2021/02/CSIRO-Immunisation-Schedule-Response-Redacted.pdf

2020:
New Zealand's Ministry of Health admits to having no records describing isolation (separation from everything else in the clinical sample) of ANY virus listed on NZ's Immunisation Schedule, hence no scientific evidence of existence:
https://fluoridefreepeel.ca/wp-content/uploads/2020/11/Ministry-of-Health-Immunisation-Schedule-Virus-Isolation-Request_Response-2-scrubbed.pdf

May 23, 2022:
Once again New Zealand Ministry of Health admitted they have no they have no record of any alleged "virus" associated with any "vaccine" on their "immunization" schedule having been found in and purified from the bodily fluid/tissue/excrement of any diseased human on the planet (in order for "it" to be sequenced, characterized and studied with controlled experiments) by anyone, anywhere, ever.

2021:
NZ's crown research institute, the Institute of Environmental Science and Research indirectly admits to having no records describing isolation (in the ordinary sense of the word) of any virus listed on NZ's Immunisation Schedule, and equates "isolation" with culturing:
https://fluoridefreepeel.ca/wp-content/uploads/2021/01/NZ-ESR-Isolation-of-ANY-VIRUS-OIA-Request-Response.pdf

2021:
New Zealand's crown research institute, the Institute of Environmental Science and Research once again equates "isolation" with culturing and this time admits to having no record re isolation of "SARS-COV-1" or any "virus" on NZ's Immunisation Schedule and simply "ignored" a query re isolation of any "common cold coronaviruses".

August/September 2022:
Danni and Tonny in Denmark filed FOIs for records of any "virus" that authorities recommend children be "vaccinated" against being isolated/purified. Danni described the responses:
"A doctor from Sundhedsstyrelsen says they don't hold scientific evidence. They base the recommendations on the fact that they've been vaccinating children for decades. And a lawyer from Statens Serum Institut searched the journal database and came up with nothing. He could not find anything matching my request. I had used the template from one of your FOIs on SARS COV 2."

June 30, 2023:
California Department of Public Health confessed: no record for "SARS-COV-2" or any "vax" schedule "virus", including veterinary "viruses":
Confession:

December 20, 2021:
Public Health Agency of Canada (PHAC) confirmed that they have no record of any alleged "virus" having been purified from a sample taken from any diseased human on Earth, by anyone, ever, period.
PHAC then gave a red herring excuse, implying that my request had ruled out studies wherein any other medium was used to achieve purification, when it had only ruled out addition of genetic material.
PHAC then claimed that "isolation in cell culture" (an oxymoron) is the gold standard for determining the presence of

"intact virus", and applied circular reasoning by asserting that stressed cells breaking down are evidence of a virus since a virus would cause cells to break down – which is on par with asserting that finding presents under a Christmas tree is the gold standard evidence for the presence of Santa Claus.
https://fluoridefreepeel.ca/wp-content/uploads/2022/01/PHAC-ANY-virus-PACKAGE-redacted.pdf

Brighton and Hove City Council have confirmed they have no record of a measles virus being found in and purified from bodily fluid/tissue:

January 2022:
Derbyshire County Council in the UK confirmed they have no record:
https://fluoridefreepeel.ca/wp-content/uploads/2022/05/Derbyshire-measles.pdf

Karen Leaper who acts as Information Governance Assistant, Kirklees Council, UK confessed to our dedicated FOI-filer in England that the people of Kirklees Council have no record of this alleged virus being found in the bodily fluid/tissue of a human and purified… in order for "it" to be sequenced, characterized and studied with controlled experiments:

November 18, 2021:
The unidentified people working on the Disclosures Team, Customer Relations and Information, Cheshire West and Chester Council, UK confessed to our dedicated FOI-filer in England that they have no record describing any alleged "Zika virus, HIV, Ebolavirus, Polio virus, MERS virus, Measles virus, HPV, Influenza virus or SARSCOV-2" being found in the bodily fluid/tissue of anyone on Earth and purified, by anyone, anywhere, ever in order for "it" to be sequenced, characterized and studied with controlled experiments (aka "science"):

London Borough of Lambeth confirmed they have no record:
https://fluoridefreepeel.ca/wp-content/uploads/2022/09/Lambeth-many-PACKAGE-redacted.pdf

January 31, 2022:
West Sussex, UK responded to a series of FOI "wishes" from "Hobbs" for records of various alleged/ "viruses" being found and purified from bodily fluid/tissue/excrement by anyone, anywhere on the planet, and/or proving a causal link between said alleged "virus" and the relevant dis-ease. "The Authority" responded that they had now completed a search for the information and "may" hold relevant records (lol), however rather than handing over the imaginary records that they "may" have, they were choosing to apply an "exemption" based on "vexatious or repeated requests"… which of course makes no sense.
The "viruses" listed in the rejected "wishes" include "measles virus".
Communications:
(On the last page, the sender of the response appears to have forgotten to delete some draft wording that they ended up choosing not to use.)
